INTRODUCTION

This Statewide Transportation Improvement Program (STIP) for Federal Fiscal Years 2025 through 2028 has been prepared by the Arkansas State Highway Commission in response to 23 U.S.C. 135 - Statewide Planning, as continued by the Infrastructure Investment and Jobs (IIJA) Act.

In accordance with 23 CFR 450.218, the State of Arkansas shall develop a STIP for all areas of the State. The STIP shall contain all regionally significant projects requiring an action by the Federal Highway Administration (FHWA) or the Federal Transit Administration (FTA), regardless of the funding source. Each project or project phase included in the STIP shall be consistent with the long-range statewide transportation plan developed under 23 CFR 450.216 and, in metropolitan planning areas, consistent with an approved metropolitan transportation plan developed under 23 CFR 450.324.

Authorization for the listed projects may be requested for any phase of development (i.e., preliminary engineering, right of way, utilities, or construction) during Fiscal Years 2025 through 2028. Authorization for pre-construction phases may be requested in advance of the year a project is scheduled for construction to ensure the project can be advertised and let to contract as scheduled in this STIP.

Performance Management

A STIP shall include, to the maximum extent practicable, a discussion of the anticipated effect of the STIP toward achieving the performance targets identified by the State in the statewide transportation plan or other state performance-based plan(s), linking investment priorities to those performance targets.

Below is a description of each of the performance areas and the anticipated effect of the STIP toward achieving the performance targets.

Safety

Arkansas has adopted the U.S. Department of Transportation's National Roadway Safety Strategy, known as the Safe System Approach, to significantly reduce serious injuries and deaths on Arkansas' highways.

With this approach, the State's Strategic Highway Safety Plan (SHSP) was developed so that it integrates the six principles of the Safe System Approach – Deaths and Serious Injuries Are Unacceptable, Humans Make Mistakes, Humans Are Vulnerable, Responsibility Is Shared, Safety is Proactive, and Redundancy Is Crucial. It is a performance-based, data-driven, comprehensive plan that establishes statewide goals, objectives, and strategies to address safety in Arkansas. This approach is consistent with the Toward Zero Deaths National Strategy on Highway Safety sponsored by the Federal Highway Administration (FHWA), the National Highway Traffic Safety Administration (NHTSA), the American Association of State Highway and Transportation Officials (AASHTO), and the Governor's Highway Safety Association (GHSA).

The latest SHSP was developed in 2022, which includes the following five focus areas: Safe Road Users, Safe Vehicles, Safe Speeds, Safe Roads, and Post-Crash Care. The SHSP identifies six core implementation areas to insure the Safe System Approach is considered. These six core implementation areas are Engineering and Infrastructure, Education and Communication, Enforcement and Legislation, Data Collection and Analysis, Emergency Response and Incident Management, and Funding and Collaboration. Key Performance Measures can be found in the SHSP for the following performance measures.

Federally mandated performance measures are:

- Number of fatalities
- Fatality rate
- Number of serious injuries
- Serious injury rate
- Number of non-motorized fatalities and serious injuries

In addition, the Department develops annual performance targets to support the SHSP goals in accordance with 23 U.S.C. 150. The targets are developed in coordination with the Arkansas State Police – Highway Safety Office, Metropolitan Planning Organizations (MPOs), and other stakeholders. They are submitted to FHWA in the Highway Safety Improvement Program (HSIP) report by August 31 each year.

Relevant SHSP Focus Areas under Engineering and Infrastructure include:

- Older driver visibility
- Rumble strips and stripes for distracted and drowsy drivers
- Infrastructure improvements for non-motorist protection
- Engineering solutions to reduce large CMV crashes
- Motorcycle friendly roadway design
- Installation of proven safety countermeasures to prevent roadway departure crashes
- Improved countermeasures at intersections
- Use of new countermeasure technology and roadway design to decrease speeding related crashes, work zone crashes, and railroad crossing crashes, as well as improving incident management data collection to reduce secondary crashes.

Safety projects included in the STIP were identified to address the focus areas in support of the SHSP performance goals. They were identified through a data-driven process and are in conformance with the HSIP requirements. The data-driven process includes:

- Evaluation of the safety performance of an area
- Identification of appropriate countermeasures that would address one or more SHSP focus areas
- Determination of benefits vs. costs

These projects are intended to have a positive effect on the State's highway safety performance and moving toward achieving the performance goals identified in the SHSP. The evaluation of safety effectiveness for these projects is conducted through the annual HSIP report.

Transit

The Arkansas Statewide Transit Asset Management Plan, covering all rural transit agencies around the State, was completed in October 2018, and updated in August 2022.

In reference to the 2018 plan, a similar transit asset management framework was used to develop the urban transit asset management plans with the exception of Rock Region Metro (RRM) and Texarkana Urban Transportation Service (T-Line). Due to the rail component of its system, RRM is classified as a Tier 1 transit provider who is responsible for developing its own transit asset management plan. T-Line receives their Section 5307 funding from the Texas Department of Transportation (TxDOT) and are part of the TxDOT's statewide transit asset management plan.

The transit asset management plans assist transit agencies in identifying rolling stock, equipment, and facility needs based on the identified performance targets.

The federally mandated performance measure is:

- Useful Life Benchmark (ULB)

With the completion of the Transit Asset Management Plan, the funds in the STIP will be distributed in accordance with the plan and ULB of the assets. The projects are intended to maintain transit assets in the state of good repair. The asset condition is reported annually in the National Transit Database to Federal Transit Administration (FTA).

Infrastructure Condition

The Department currently manages the 12th largest State Highway System in the country. In order to maintain the system, the Department has developed the Transportation Asset Management Plan (TAMP) compliant with 23 CFR 515 with the goal of maintaining the system in the best possible condition for the given amount of funding available. The TAMP is risk-based and it describes the inventory and condition of the highways and bridges located on the National Highway System (NHS) in Arkansas. It also describes how the Department is managing these assets using TAMP principles. Utilizing the life-cycle planning information, the TAMP assists the Department in identifying the right projects at the right times to reduce the overall cost of assets while maintaining a safe and efficient system.

Federally mandated performance measures are:

- Percent of Interstate pavements in Good condition
- Percent of Interstate pavements in Poor condition
- Percent of non-Interstate NHS pavements in Good condition
- Percent of non-Interstate NHS pavements in Poor condition
- Percent of NHS bridges by deck area in Good condition
- Percent of NHS bridges by deck area in Poor condition

In addition, State DOTs are required to submit a biennial performance report to FHWA in accordance with code 23. U.S.C. 150 and 23 CFR part 490. Two-year and four-year targets are set in recurring four-year performance periods. Table 1 and Table 2 show the current condition and the four-year targets reported in the Baseline Performance Report for the performance period from January 1, 2022 to December 31, 2025. The current condition is based on 2021 data but reported on 2022, the four year targets are based on 2025 projected year condition but reported on 2026.

2022 Baseline Performance Report		
	Current Condition (2022)	4-year Target (2026)
Percent of Interstate pavements in Good condition	65.2%	48.0%
Percent of Interstate pavements in Poor condition	1.3%	5.0%
Percent of non-Interstate NHS pavements in Good condition	35.0%	45.0%
Percent of non-Interstate NHS pavements in Poor condition	5.3%	4.0%

Table 1 Pavement condition and targets in 2022 Baseline Performance Report

Out of the 16,451 centerline miles of State Highway System, there are 768 centerline miles of Interstate and 2,600 centerline miles of non-Interstate NHS. Currently, the 2026 target for Percent of Pavement in Good condition is set to be 48.0% for Interstate pavements and 45.0% for non-Interstate NHS pavements. In the current STIP, 295 centerline miles of pavement projects are programmed for Interstate highways, and 930 centerline miles of pavement projects are programmed for non-Interstate NHS roads. These projects will add 38% of Interstate in Good condition and 36% of Non-Interstate in Good condition.

2022 Baseline Performance Report		
	Current Condition (2022)	4-year Target (2026)
Percent of NHS bridges by deck area in Good condition	43.6%	40.0%
Percent of NHS bridges by deck area in Poor condition	3.5%	8.0%

Table 2 Bridge condition and targets in 2022 Baseline Performance Report

Table 2 shows the current condition and 2026 targets for NHS Bridges. The 2026 target for the Percent of NHS bridges by deck area in Good condition is set to be 40.0%, and the 2026 target for the Percent of NHS bridges by deck area in Poor condition is set to be 8.0%. Both targets are set assuming that the bridge deterioration outpaces the bridge repair and replacement. In the current STIP, close to 1,720,000 square feet of deck area is programmed in the bridge repair and replacement jobs. It will add 1.37% (by deck area) of bridges in Good condition.

In accordance with the TAMP, a number of jobs in the STIP will implement system preservation, reconstruction, or structures and approaches (another name for bridge replacement) type of work. These projects are intended to maintain highway assets in the state of good repair and achieve performance targets. With additional funding made available through various state initiatives, preservation projects are implemented expeditiously as needs are identified. The highway condition is reported annually in the Highway Performance Monitoring System (HPMS) to FHWA.

System Reliability and Congestion Mitigation & Air Quality (CMAQ)

System reliability on the Interstate and non-Interstate NHS is assessed using FHWA's National Performance Management Research Data Set (NPMRDS) for travel time reliability and freight movement. Travel time reliability is defined as the ratio of a longer travel time (80th percentile) to a normal travel time (50th percentile). Roadway segments that have a travel time reliability greater than 1.5 are considered unreliable. Freight reliability is based on the truck travel time reliability index that is defined as the 95th percentile truck travel time divided by the 50th percentile truck travel time.

Federally mandated performance measures are:

- Percent of person-miles traveled on the Interstate that are reliable
- Percent of person-miles traveled on the non-Interstate NHS that are reliable
- Truck travel time reliability on the Interstate System
- Annual hours of peak hour excessive delay per capita (only applicable in the West Memphis-Marion Area Transportation Study (WMATS))
- Percent non-single occupancy vehicle travel (only applicable in the WMATS)
- On-Road Mobile Source Emission (only applicable in the WMATS)

2022 Baseline Performance Report		
	Current Condition (2022)	4-year Target (2026)
Percent of person-miles traveled on the Interstate that are reliable	98.5%	93%
Percent of person-miles traveled on the non-Interstate NHS that are reliable	95.6%	92%
Truck travel time reliability on the Interstate System	1.24	1.35

Table 3 System reliability and freight condition and targets in 2022 Baseline Performance Report

Table 3 shows the current condition and 2026 targets for system reliability and freight measures. The 2026 targets for the percent of person-miles traveled on the Interstate and non-Interstate NHS that are reliable is set to be 93% and 92%, respectively. The 2026 target for truck travel time reliability on the Interstate System is set to be 1.35. All three targets are conservative. Two major factors are taken into consideration: 1) the baseline data is from a year right after the COVID-19 pandemic outbreak and might set the standard too high. The long-term impact of the pandemic to the traffic pattern is still uncertain. 2) the ongoing large construction projects in the Central Arkansas area, such as CA0602 might affect system reliability during construction.

2022 Baseline Performance Report		
	Current Condition (2022)	4-year Target (2026)
Annual hours of PHED per capita (only applicable in the WMATS)	8.4	9.6
Percent Non-SOV travel (only applicable in the WMATS)	16.8%	16.2%

Table 4 CMAQ condition and targets in 2022 Baseline Performance Report

Table 4 shows the current condition and 2026 targets for Peak Hour Excessive Delay (PHED) and Percent of Non-Single Occupancy Vehicle (Non-SOV) travel. These targets apply to the Greater Memphis area and were set jointly in coordination with the Memphis MPO, West Memphis MPO, Tennessee DOT, and Mississippi DOT through a Tri-State System Performance Measures (PM3) measures working group. The Department supports these targets as there are not many construction activities planned in this area between now and 2026.

In West Memphis, reducing on-road mobile source emissions is a goal and, although no specific projects are selected at this time, funds are available when applicable projects are identified. The state highways are monitored continuously to ensure a safe and efficient transportation system is provided. As needs arise, projects are identified and implemented. System performance is reported annually through the Highway Performance Monitoring System (HPMS) to FHWA.

Metropolitan Planning Organizations (MPO)

With respect to urban areas greater than 50,000 in population, projects listed in the Transportation Improvement Programs (TIPs) that have been developed by the various MPOs are hereby included as part of the overall Federal-aid Highway Program and Federal-Aid Transit Program. For additional information on projects located within a MPO Area, please contact the appropriate MPO.

Projects (including Federal Transit Administration Projects) utilizing funds set aside for rural areas were selected in consultation with the appropriate local officials.

This program includes both the Federal-aid portion and the 100% State funded portion of the State's overall highway construction program and is financially constrained in accordance with federal regulations set forth in 23 CFR Part 450. The following financial summary demonstrates current and estimated revenues to fund the STIP, while the system as a whole is being adequately operated and maintained.

Additional information regarding this program may be obtained by contacting:

Funds Remaining For Construction	\$ 412.7	\$ 421.7	\$ 437.7	\$ 459.2	\$ 1,731.3

(1) The value contains funding from Act 1 of the 90th General Assembly's Third Extraordinary Session (\$20M), the funding from Act 1058 of 2021 (\$50M) and state revenue interest (\$5.9M).
Note: Totals may not be additive due to rounding.

GLOSSARY OF TERMS, ABBREVIATIONS, & ACRONYMS

4-R	Resurfacing, Restoration, Rehabilitation and Reconstruction
AC	Advance Construction - one of several Federal-aid fund management tools designed to provide states with greater flexibility in managing Federal-aid highway funds. The primary benefit of AC is that it allows states to accelerate transportation projects using non-Federal funds while maintaining eligibility to be reimbursed with Federal-aid funds at a later date.
ADA	Americans with Disabilities Act
ArDOT	Arkansas Department of Transportation
BFP	Bridge Formula Program. See Information on Federal Funding.
BFP (Off)	Bridge Formula Program - set-aside funds for off-system bridges. See Information on Federal Funding.
BR	Bridge
CAP	Connecting Arkansas Program - In 2012, through a voter-approved constitutional amendment, the people of Arkansas passed a 10-year, half-cent sales tax to improve the State's transportation system, including projects that widen and improve approximately 200 miles of highways and interstates.
Capacity Improvements	Widening of existing facilities or construction of new facilities to increase capacity.
CARTS	Central Arkansas Regional Transportation Study - the Metropolitan Planning for the urbanized area in Pulaski, Saline, Faulkner, and a portion of Lonoke Counties. (See also Metroplan.)
CENG	Construction Engineering and Inspection
CHBP	Competitive Highway Bridge Program. Federal-aid grant from FHWA to provide funding that will go toward highway bridge replacement or rehabilitation projects on public roads that demonstrate cost savings by bundling at least two highway bridge projects into a single contract.
CMAQ	Congestion Mitigation and Air Quality Improvement Program. See Information on Federal Funding.
CMAQ AQ	Congestion Mitigation and Air Quality Improvement Program - air quality use only. See Information on Federal Funding.
CMAQ FLEX	Congestion Mitigation and Air Quality Improvement Program - flexible use. See Information on Federal Funding.
COVID	Coronavirus Response and Relief Supplemental Appropriations Act. See Information on Federal Funding.
CR	County Road

GLOSSARY OF TERMS, ABBREVIATIONS, & ACRONYMS

CRP	Carbon Reduction Program. See Information on Federal Funding.
CRP>200K	Carbon Reduction Program - set-aside funds for areas with greater than 200,000 population. See Information on Federal Funding.
CS	City Street
DBE	Disadvantaged Business Enterprises. See Information on Federal Funding.
Earmark	Federal funds that are designated for a particular purpose.
EFLHD	Eastern Federal Lands Highway Division of the Federal Highway Administration - a division of the USDOT that promotes administration of federal public roads and bridges; protects and enhances natural resources and provides transportation access for Native Americans.
Eng.	Engineering
Env.	Environmental
ERFO	Emergency Relief for Federally Owned Roads. See Information on Federal Funding.
FAST Act	Fixing America's Surface Transportation Act - this act funds the Federal Highway Program from Federal Fiscal Years (FFY) 2016 - 2020.
Federal Lands	Lands owned or administered by the Federal government. Examples are: National parks, national wildlife refuges, military reservations, federal prisons and public domain land.
Ferry Boat	Ferry Boat Program. See Information on Federal Funding.
FFY	Federal Fiscal Year - a pre-defined 12 month period from October 1 to September 30.
FHWA	Federal Highway Administration - an agency within the U.S. Department of Transportation that supports state and local governments in the design, construction, and maintenance of the Nation's transportation system.
FLAP	Federal Lands Access Program. See Information on Federal Funding.
FLTP	Federal Lands Transportation Program. See Information on Federal Funding.
FRONTIER	Frontier Transportation Study - the Metropolitan Planning Organization (MPO) for the urbanized area in Crawford and Sebastian Counties. (See also MPO.)
FTA	Federal Transit Administration - an agency within the USDOT that provides financial and technical assistance to local public transit systems.
FTA-5304	Federal funding for transit system statewide planning and programming.
FTA-5305	Federal funding for transit system planning programs.
FTA-5307	Urbanized area formula grants - provides competitive Federal funding to public transit systems in urbanized areas.

GLOSSARY OF TERMS, ABBREVIATIONS, & ACRONYMS

FTA-5310	Federal funding for enhanced mobility of seniors and individuals with disabilities.
FTA-5311	Federal formula grant funds for transit in rural areas / populations < 50,000.
FTA-5329	Federal funds for transit safety and oversight programs.
FTA-5337	State of good repair grants - federally funded capital assistance for maintenance, replacement and rehabilitation of motorbus systems. Additionally, can be used for Transit Asset Management plans.
FTA-5339	Federal Buses and Bus Facilities Grants Program - must be "low" or "no" emission transit or equipment.
GARVEE Bonds	Grant Anticipation Revenue Vehicles (GARVEE Bonds) -a tool used by many states to finance highway projects, secured by the Federal Highway Trust Fund, to enable the acceleration of construction timelines and spread the cost of a transportation facility over its useful life.
HIP	Highway Infrastructure Program. See Information on Federal Funding.
HIP >200K	Highway Infrastructure Program - set-aside funds for areas with greater than 200,000 population. See Information on Federal Funding.
HSATS	Hot Springs Area Transportation Study - the Metropolitan Planning Organization (MPO) for the urbanized area in Garland County. (See also MPO.)
HSIP	Highway Safety Improvement Program. See Information on Federal Funding.
Improve Air Quality	Improve air quality in nonattainment areas.
INFRA	Infrastructure for Rebuilding America. Federal-aid grant from the U.S. Department of Transportation to help fund infrastructure improvements using innovative approaches to improve the processes for building significant projects, and increasing accountability for the projects that are built.
Intchnng. Impvts.	Interchange Improvements - improvements to the junction between two or more roadways, typically including a grade separation and ramps.
Inters. Impvts.	Intersection Improvements - improvements to the junction between two or more roadways that meet at grade.
IRP	Interstate Rehabilitation Program - Approved by a special election (November 2011) - allowed the Highway Commission to issue up to \$575 million in GARVEE Bonds to help finance repairs and improvements to Interstates.
JATS	Jonesboro Area Transportation Study - the Metropolitan Planning Organization (MPO) for the urbanized area in Craighead County. (See also MPO.)
JETS	Jonesboro Economical Transit System - provides public transportation for the City of Jonesboro.

GLOSSARY OF TERMS, ABBREVIATIONS, & ACRONYMS

Local	Local Funds / City or County
Major Widening	Widening of an existing roadway to improve capacity or enhance safety.
Metroplan	Metroplan is the federally designated Metropolitan Planning Organization (MPO) for central Arkansas. (See also CARTS and MPO).
Metropolitan Planning Organization	A federally mandated and funded transportation policy making organization that is made up of representatives from local government and government transportation authorities.
Miscellaneous	Any number of improvements.
MPO	See Metropolitan Planning Organizations.
NARTS	Northwest Arkansas Regional Transportation Study. The Metropolitan Planning Organization (MPO) for all of Washington and Benton Counties. (See also MPO.)
NEPA	National Environmental Policy Act - a federal law that requires agencies that administer federally funded projects to assess environmental effects to their proposed actions prior to constructing highways, roadways or projects in public land.
NEVI	National Electric Vehicle Infrastructure Program. See Information on Federal Funding.
New Location	Construction of a roadway on a location not previously developed for vehicular transportation.
NHFP	National Highway Freight Program. See Information on Federal Funding.
NHPP	National Highway Performance Program. See Information on Federal Funding.
NHS	National Highway System - includes the Interstate Highway System and other roads important to the nation's economy, defense and mobility.
Off System Bridge	See Information on Federal Funding.
OJT	On-the-Job Training. See Information on Federal Funding.
Operational Improvements	Improves traffic operations on existing roadways.
P.E. or PE	Preliminary Engineering - includes surveys, environmental analysis, and design.
Partnering Project	A project that has a partnering arrangement between ARDOT and local governments and other state agencies that results in project acceleration.
Passing Lane(s)	Construction of an additional lane or lanes intended for passing on a two lane roadway.
PBATS	Pine Bluff Area Transportation Study - the Metropolitan Planning Organization (MPO) for the urbanized area in Jefferson County. (See also MPO.)
Planning	Determination of existing or future needs.

GLOSSARY OF TERMS, ABBREVIATIONS, & ACRONYMS

Project Development	Combination of preliminary engineering, environmental analysis, design, right of way acquisition, and utility relocation activities.
PROTECT	Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation Program. See Information on Federal Funding
QACF	Quick Action Closing Funds
Rail Hwy	Railway-Highway Crossing Program. See Information on Federal Funding.
Reconstruction	Rebuilding of an existing roadway.
Rehabilitation	Pavement restoration, patching, heat scarifying, etc., of an existing roadway.
ROW	Right of Way - acquisition of real property to make way for the construction of a highway project. Real property is a term that is used to describe land, easements, air or access rights, or the rights to control the use of land, such as leases.
RR	Railroad
RR Grade Separation	Construction of a bridge over or under a railroad track(s) at an at-grade crossing.
RTP	Recreational Trails Program. See Information on Federal Funding.
Sealing	Application of an asphalt seal coat to an existing roadway.
Sel. Secs.	Selected Sections
SHSP	Strategic Highway Safety Plan - a Federally required statewide-coordinated safety plan for reducing highway fatalities and serious injuries on all public roads.
State	State Funds
State Local	State funds, Local funds, or a combination of the two.
STBGP	Surface Transportation Block Grant Program. See Information on Federal Funding.
STBGP >200K	Surface Transportation Block Grant Program - set-aside funds for areas with greater than 200,000 population. See Information on Federal Funding.
STIP	Statewide Transportation Improvement Program - a Federally required, financially constrained, four-year or more, list of upcoming statewide transportation projects that identifies the schedule and the funding by Federal Fiscal Year.
Str(s). & Apprs.	Structure(s) and Approaches - including, but not limited to, bridge replacement, grade separation, etc.
System Preservation	Various projects to preserve, rehabilitate, or reconstruct an existing roadway.
TAP	Transportation Alternatives Program. See Information on Federal Funding.

GLOSSARY OF TERMS, ABBREVIATIONS, & ACRONYMS

TAP >200k	Transportation Alternatives Program - set-aside funds for areas with greater than 200,000 population. See Information on Federal Funding.
TIP	Transportation Improvement Program - a Federally required, financially constrained, four-year or more, list of upcoming transportation projects that identifies the schedule and the funding by Federal Fiscal Year in a Metropolitan Planning Organization area.
TMA	Transportation Management Area - an area designated by the Secretary of Transportation having an urbanized area population of over 200,000 or upon special request from the Governor and the MPO designated for the area.
Transit	Projects that provide operation assistance or capital assistance such as improving or expanding local public transit systems, including buses, subways, light rail, commuter rail, or trolleys.
TUTS	Texarkana Urban Transportation Study - the Metropolitan Planning Organization (MPO) for the urbanized area in Miller County. (See also MPO.)
U of A	University of Arkansas
Utility	Adjustment and/or relocation of utilities.
Widening	Widening an existing roadway - one or more lanes.
WMATS	West Memphis-Marion Area Transportation Study - the Metropolitan Planning Organization (MPO) for the urbanized area in Crittenden County. (See also MPO.)

INFORMATION ON FEDERAL FUNDING

Federal funding for projects includes:

NATIONAL HIGHWAY PERFORMANCE PROGRAM (NHPP)

In general, the NHPP provides support for the condition and performance of the National Highway System (NHS), and to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in a State's asset management plan. Restoration work on all State Highway System bridges is also an eligible use of these funds.

NATIONAL HIGHWAY FREIGHT PROGRAM (NHFP)

The NHFP is for projects that will improve the efficient movement of freight on the National Highway Freight Network (NHFN) and support several goals, including:

- Investing in infrastructure and operational improvements that strengthen economic competitiveness, reduce congestion, reduce the cost of freight transportation, improve reliability, and increase productivity
- Improving the safety, security, efficiency, and resiliency of freight transportation in rural and urban areas
- Improving the state of good repair of the NHFN
- Using innovation and advanced technology to improve NHFN safety, efficiency, and reliability
- Improving the efficiency and productivity of the NHFN
- Improving State flexibility to support multi-State corridor planning and address highway freight connectivity
- Reducing the environmental impacts of freight movement on the NHFN

SURFACE TRANSPORTATION BLOCK GRANT PROGRAM (STBGP)

The STBGP provides flexible funding that may be used by States for projects to preserve and improve the conditions and performance on any State highway or bridge.

A portion of these funds are set aside and sub-allocated as follows:

- **Set-aside**

Transportation Alternatives and Recreational Trails Projects (**TAP** or **RTP**), provide funding for a variety of smaller-scale transportation projects such as pedestrian and bicycle facilities, recreational trails, safe routes to school projects, community improvements such as historic preservation and vegetation management, and environmental mitigation related to storm water and habitat connectivity

Bridges not on Federal-aid highways (**Off System Bridge**)

- **Sub-allocation**

A percentage of a State's STBG apportionment (after set-asides) is to be obligated in the following areas in proportion to their relative shares of the State's population:

- ✓ Urbanized areas with population greater than 200,000 (**STBGP>200K**)
- ✓ Urbanized areas with population greater than 50,000 but no more than 200,000 (**STBGP 50K-200K**)
- ✓ Areas with population greater than 5,000 but no more than 50,000 (**STBGP 5K-50K**)
- ✓ Areas with population of 5,000 or less (**STBGP<5K**)

BRIDGE FORMULA PROGRAM (BFP)

The BFP provides funding for projects such as bridge replacement, rehabilitation, preservation, protection, and construction of new bridges on public roads. Funding is distributed based on a formula that compares replacing all poor bridges in a State and rehabilitating all fair bridges in a State. A portion of these funds are set aside as follows:

- **Set-aside**

A percentage of a State's BFP is required to be set-aside to address off-system bridge needs.

HIGHWAY SAFETY IMPROVEMENT PROGRAM (HSIP)

The HSIP funds are eligible for projects that will achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands. The HSIP requires a data-driven, strategic approach to improving highway safety on all public roads that focuses on performance. A portion of these funds are set aside as follows:

- **Set-aside**

Railway-Highway Crossings Program (**Rail Hwy**) which provides funding for safety improvements to reduce the number of fatalities, injuries, and crashes at public railway-highway grade crossings.

CONGESTION MITIGATION AND AIR QUALITY IMPROVEMENT PROGRAM (CMAQ)

The CMAQ program provides a flexible funding source to State and local governments for transportation projects and programs to help meet the requirements of the Clean Air Act. Funding is available to reduce congestion and improve air quality for areas that do not meet the National Ambient Air Quality Standards for ozone, carbon monoxide, or particulate matter (nonattainment areas) and for former nonattainment areas that are now in compliance (maintenance areas).

- **Sub-allocation**

CMAQ Program funds dedicated to West Memphis, AR (**CMAQ AQ**) for projects to the attainment or maintenance of a national ambient air quality standard.

CMAQ Program flexible funds (**CMAQ Flex**) that may be used by States for projects to preserve and improve the conditions and performance on any State highway or bridge.

CARBON REDUCTION PROGRAM (CRP)

The CRP funds are eligible for projects that address traffic management, bicycle and pedestrian facilities, congestion management technologies, public transportation, and alternative fuel vehicle deployment support. As part of this program, the state must develop a carbon reduction strategy within two years and update it every four years.

A portion of these funds are sub-allocated as follows:

- **Sub-allocation**

A percentage of a State's CRP apportionment is to be obligated in the following areas in proportion to their relative shares of the State's population:

- ✓ Urbanized areas with population greater than 200,000 (CRP>200K)
- ✓ Urbanized areas with population greater than 50,000 but no more than 200,000 (CRP 50K-200K)
- ✓ Areas with population greater than 5,000 but no more than 50,000 (CRP 5K-50K)
- ✓ Areas with population of 5,000 or less (CRP<5K)

FEDERAL LANDS ACCESS PROGRAM (FLAP)

The FLAP provides funds for projects on Federal Lands Access Transportation Facilities that are located on or adjacent to, or that provide access to, Federal lands. This is a competitive grant program overseen by the Eastern Federal Lands Highway Division (EFLHD) for Arkansas.

FERRY BOAT PROGRAM (Ferry Boat)

The Ferry Boat Program (Ferry Boat) provides funds for the construction of ferry boats and ferry terminal facilities.

PROMOTING RESILIENT OPERATIONS FOR TRANSFORMATIVE, EFFICIENT, AND COST- SAVING TRANSPORTATION GRANT PROGRAM (PROTECT)

The PROTECT Grant Program provides funds for improvements to system resiliency. Funds will be distributed by formula and through competitive grants.

NATIONAL ELECTRIC VEHICLE INFRASTRUCTURE FORMULA PROGRAM (NEVI)

The NEVI Program provides funds for projects that are directly related to the charging of a vehicle and only for electric vehicle (EV) charging infrastructure.

DISADVANTAGED BUSINESS ENTERPRISE SUPPORTIVE SERVICES PROGRAM (DBE)

The DBE Program's primary purpose is to provide training, assistance, and services to minority, disadvantaged, and women-owned business enterprises to increase their activity in the program, and to facilitate the firms' development into viable, self-sufficient organizations capable of competing for, and performing on federally assisted highway projects.

ON-THE-JOB TRAINING PROGRAM (OJT)

The OJT Program is funded by the Workforce Innovation and Opportunity Act and allows States to hire and train skilled workers and get reimbursed for these efforts.

INFORMATION ON GENERIC PROJECTS

- IRP Debt Service

Conversion of Advanced Construction NHPP funds to repay the bonds issued for the Interstate Rehabilitation Program (IRP), which was approved by Arkansas voters in November 2011. Under this program, the Commission had the authority to issue up to \$575 million in bonds for Interstate rehabilitation to be partially repaid using NHPP funds.

- Various Bridge Preservation

Projects to prevent, delay or reduce deterioration of bridges or bridge elements, restore the function of existing bridges, keep bridges in good condition and extend their life. Bridge preservation actions may be preventative or condition driven.

- Bridge Inspection / Inspection Equipment

Routine inspection of bridges and purchase of bridge inspection equipment.

- Railroad Crossing Protective Devices / Surfacing / Hazard Elimination

Safety improvements to reduce the number of fatalities, injuries, and crashes at public railway-highway grade crossings.

- Various Transportation Alternative Projects

Funded with a set-aside of STBGP program funding for transportation alternatives (TAP). Projects in this category will be approved through a competitive selection process with the solicitation of applications. These set-aside funds include a variety of smaller-scale transportation projects such as pedestrian and bicycle facilities, recreational trails, safe routes to school projects, community improvements such as historic preservation and vegetation management, and environmental mitigation related to storm water and habitat connectivity.

- Various Trail Projects

Projects in this category will be approved through a competitive selection process with the solicitation of applications. Eligible projects include motorized and non-motorized trails and trail facilities.

- Various Resurfacing / Restoration / Rehabilitation / Reconstruction / Bridge Replacement / Bridge Rehabilitation on County Roads

Federal funds dedicated for pavement or bridge improvement projects on the County Road System.

- Various Off-System Bridge Replacement / Bridge Rehabilitation on City Streets / County Roads

Federal funds dedicated for bridge improvement projects for Off System Bridges on the City Street or County Road System.

- PE / Right-of-Way / Utilities / Construction Engineering

Project development and construction management activities including surveys, environmental analysis, design, right-of-way acquisition, relocating utilities and providing construction inspection once a project is let to contract.

- Various Wildflower Programs

Funds to support ARDOT's beautification program of planting wildflowers along the State Highway System.

- Motor Fuel Enforcement Activities

Funding for ARDOT's Internal Audit Motor Fuel Tax Section to offset the cost of International Fuel Tax Agreement audits and Motor Fuel Tax audits.

- Various Statewide Safety Improvements

Improvements consistent with the State Strategic Highway Safety Plan (SHSP) that correct or improve a hazardous road location or feature or address a highway safety problem.

- Statewide Pavement Markings & Signing Projects

Upgrading pavement markings and signs to meet desired levels of retroreflectivity for driver safety.

- Workforce Training and Development

Various courses and training for workforce development and educational activities for ARDOT employees.

- Various Pavement Preservation Projects

Projects to improve ride quality and extend the life of pavements on the State Highway System. Projects may increase lane widths and/or shoulder widths to current standards.

- Various Signals and Intersection Improvements

Signalization, signal upgrades, signal coordination, and the addition of turn lanes to improve the flow of traffic through intersections.

- Various Sealing Projects

May include fog seals, chip seals, high friction surface treatments or other surface treatments on the State Highway System to improve friction and long-term performance of the pavement.

- Various Federal Lands Projects

Improves transportation facilities that are located on or adjacent to, or that provide access to Federal lands. This is a competitive grant program.

- Various Ferry Boat Program Projects

Restoration or construction of ferry boats and/or ferry terminal facilities. This is a competitive grant program.

- Disadvantaged Business Enterprises (DBE) Supportive Services

Provides training, assistance, and services to minority, disadvantaged, and women business enterprises to facilitate the firms' development into viable, self-sufficient organizations capable of competing for, and performing on federally assisted highway projects.

- On-the-Job Training (OJT) Supportive Services

Hire and train workers in various highway construction skills.

- Various Electric Vehicle Infrastructure Projects

Projects to improve/install various electric vehicle charging infrastructure. This includes traffic control devices or signs directing vehicles to charging infrastructure as well as operating assistance for associated operation and maintenance costs.

- Various Intelligent Transportation System (ITS) Projects

Projects to improve the efficiency and safety of transportation through advanced technologies such as variable message signs, traffic signal control systems, traffic cameras, and vehicle detection systems.

- Various Transportation Resiliency Projects

Projects to improve the resiliency of the transportation system throughout the state. This includes funding for evacuation routes, coastal resilience, making existing infrastructure more resilient, or efforts to move infrastructure to nearby locations not continuously impacted by extreme weather and natural disasters.

- Various ADA Facility Upgrades

Projects to improve existing Americans with Disabilities Act (ADA) facilities throughout the state. This will ensure all ADA facilities are in compliance with regulations.

- Various Concrete Pavement Preservation Projects

Projects to improve ride quality and extend the life of concrete pavements on the State Highway System.

- Various Microsurfacing Projects

Projects to improve ride quality and extend the life of pavements on the State Highway System.

- Economic Development

Projects to improve economic competitiveness in various regions throughout the State. Involves partnering with various entities to facilitate the funding/completion of these projects.

APPLICABLE GUIDANCE

Eligible activities for all programs can be found in the “IIJA” guidance at the following website: https://www.fhwa.dot.gov/bipartisan-infrastructure-law/fact_sheets.cfm

State Highway Projects

Sorted by Route

A red route number indicates the highway is not part of the Arkansas Primary Highway Network (APHN).

Appendix A: Pavement Preservation Projects

Sorted by Route

A red route number indicates the highway is not part of the Arkansas Primary Highway Network (APHN).

Pavement preservation projects are shown for informational purposes.
Actual locations are subject to change as schedules and priorities warrant.
Any deviations from this list will not require a STIP Amendment.

Appendix C: Federal Grants

Project Name	State	County	Applicants	Type Work	Program Name	Funding Amount
Delta Heritage Trail: Connecting Rural Communities	AR	Arkansas & Desha	Arkansas Department of Parks, Heritage, and Tourism	Pedestrian Improvements	2021 RAISE Discretionary Grants	\$ 20,482,208
The project will complete approximately 13.4 miles of the Delta Heritage Trail rail-to-trail in the Arkansas Delta. The project completes the final three phases, from Snow Lake to the termination at the Arkansas River Bridge, of the 84.5-mile multi-use trail corridor.						
Old Stagecoach Road Complete Streets Connector	AR	Saline	Arkansas Department of Transportation	Operational Improvements	2023 RAISE Discretionary Grants	\$ 25,000,000
The project will reconstruct approximately 3.6 miles of Old Stagecoach Road (Highway 5), create a shared-use path, add continuous sidewalks, make storm drainage improvements, and complete utility work.						
Russellville Connected Trail System	AR	Pope	City of Russellville	Pedestrian Improvements	2023 RAISE Discretionary Grants	\$ 23,752,759
This project will create approximately 13 miles of new active transportation infrastructure, consisting of 10-foot multi-use trails and 10-foot side paths.						
Bridging Heritage: Main Street Revitalization	AR	Benton	City of Siloam Springs	Operational Improvements	2024 RAISE Discretionary Grants	\$ 11,556,363
This project will fund the planning, engineering design, and construction of Complete Streets improvements along E Main Street between Maxwell Street and Lincoln Street. The project includes the replacement of the Sager Creek Bridge, pavement resurfacing, bicycle lanes, ADA sidewalks, lighting, street trees, traffic management solutions, stormwater drainage, and utilities.						
I-49 Extension	AR	Sebastian & Crawford	Arkansas Department of Transportation	New Location	2024 RAISE Discretionary Grants	\$ 25,000,000
This project will plan, design, and construct an approximate 14-mile extension of I-49 that features a four-lane, divided, controlled-access facility. The project will also include a new bridge crossing over the Arkansas River, approximately four interchanges, additional grade separations, and local road improvements.						
Little Red Greenway	AR	White	City of Searcy	Pedestrian Improvements	2024 RAISE Discretionary Grants	\$ 4,222,900
This project will plan and design approximately 15.5 miles of greenway linking Kensett to downtown Searcy as an expansion to the existing 5.5 mile Searcy Bike Trail. The project will include three components: 1) revising citywide plans, policies, and ordinances to incorporate the planned greenway, 2) collection of public input, and 3) the completion of design and construction documents.						
Neighborhood Revitalization through Retrofit of Highway 63B in Americas Fastest Shrinking City: Pine Bluff, Arkansas	AR	Jefferson	University of Arkansas	Planning Study	2023 Reconnecting Communities Pilot Program	\$ 548,492
The project team seeks to perform a planning study for the context-sensitive retrofit of Arkansas State Highway 63B.						
Mississippi River Bridges: Resilience of Multimodal Infrastructure through Floodplain Restoration and Protection	AR	Crittenden	City of West Memphis	Resiliency Improvements	2023 Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation Program	\$ 16,155,550
The City of West Memphis will receive over \$16.1 million to restore hundreds of acres the floodplain with wetlands and riparian forest, which will protect five major surface transportation routes (I-55, I-40, two freight rail lines, and a bicycle/pedestrian crossing of the Mississippi River) from flood events. The natural infrastructure will improve ecosystem health and mitigate flooding events that threaten economic impacts from freight delays, transportation disruptions, and agricultural losses.						
America's River Crossing	AR/TN	Crittenden	Tennessee Department of Transportation	Bridge Replacement	2024 Bridge Investment Program	\$ 196,875,000
The existing I-55 bridge (also known as the Memphis-Arkansas Bridge) is one of only two highway crossings of the Mississippi River in Memphis, Tennessee. The America's River Crossing project will use the grant funding to totally replace the existing bridge, which opened to interstate traffic in 1949. The project corridor covers just over 1.5 miles and runs parallel to the existing I-55 bridge. Total grant award amount is \$393,750,000. Arkansas' share of the grant is \$196,875,000.						
Expanding Access to Electric Vehicle (EV) Charging in Northwest Arkansas	AR	Various	Ozark Regional Transit	EV Charging Infrastructure	2023 Charging and Fueling Infrastructure Discretionary Grant Program	\$ 14,924,800
This project aims to strategically deploy publicly accessible electric vehicle charging and alternative fueling infrastructure in the places people live and work – urban and rural areas alike – in addition to along designated Alternative Fuel Corridors (AFCs).

Appendix E: Highway 82 Corridor Projects

Sorted Geographically from
Texas to Mississippi

HIGHWAY 82 CORRIDOR

Highway 82 is a 185-mile corridor that traverses the southern part of Arkansas between Texarkana, Texas and the Mississippi River. A portion of this corridor is signed concurrently as Highway 65. A map of the corridor can be seen below.

The Highway 82 Corridor is important to the economy of southern Arkansas. This corridor is part of the National Highway System (NHS), the Department's Arkansas Primary Highway Network (APHN), and the Department's Four-Lane Grid system. The Department has invested \$230 million on this corridor since 2014.

In addition, this STIP includes \$125 million for capacity improvement projects, \$250 million in capital improvement projects, and \$16 million of pavement preservation projects to improve the Highway 82 Corridor. We will continue to make improvements to the Highway 82 Corridor as funding becomes available.

Appendix F: Highway 412 Corridor Projects

Sorted Geographically from
Oklahoma to Missouri

HIGHWAY 412 CORRIDOR

Highway 412 in Arkansas was designated as a High Priority Corridor by Congress in the 1991 Intermodal Surface Transportation Efficiency Act (ISTEA). Portions of this 292-mile corridor are signed concurrently as Highways 62, 63, 65 and 67. A map of the corridor can be seen below.

The Highway 412 Corridor is important to the economy of northern Arkansas. This corridor is part of the National Highway System (NHS), the Department's Arkansas Primary Highway Network (APHN), and the Department's Four-Lane Grid system. The Department has invested \$480 million on this corridor since 2014.

In addition, this STIP includes \$4 million for bridge replacement projects, \$24 million in capacity improvement projects, \$339 million in capital improvement projects and \$47 million of pavement preservation projects to improve the Highway 412 Corridor. We will continue to make improvements to the Highway 412 Corridor as funding becomes available.
