

Class 3 Protective Surface Treatment for Concrete

Supplier	Brand
Castek, Inc. (a wholly owned subsidiary of Transpo Industries) Berwick, PA	Sealate T70-10
Sika Corporation Lyndhurst, NJ	Sikagard-20 Pronto TF

Method of Documentation of Acceptance:

By brand and source.

Method of Approval:

THE FOLLOWING PROCEDURE IS TO BE USED IN ACQUIRING APPROVAL OF CLASS 3 PROTECTIVE SURFACE TREATMENT FOR CONCRETE FOR INCLUSION ON THE QUALIFIED PRODUCTS LIST

- An approval will be predicated upon a test report showing conformance to the specifications for Class 3 Protective Surface Treatment for Concrete in Section 803 of the ARDOT Standard Specifications for Highway Construction.
- Approximately one quart of each product submitted will be supplied to the Department along with manufacturer's product and application literature and Safety Data Sheets (SDS).
- The manufacturer will supply information concerning the chemical and physical composition of the product and any restrictions to the storage, handling or use of the product.
- When deemed necessary by the Materials Engineer, random samples will be taken and tested.
- Material failure of project and/or random samples will be considered sufficient reason to discontinue acceptance of a material from a manufacturer, determination of which shall be made by the Materials Engineer.
