

NOTICE TO CONTRACTORS

REVISION IN SUBMITTING ASPHALT TEST REPORTS CONTAINING SPECIAL PROVISIONS IN THE CONTRACT

With the implementation of the SP Percent Air Voids and Ndesign for ACHM Surface Mix Designs, SP Balanced Mix Designs, and SP Ultrathin Bonded Wearing Course a new worksheet for collecting contractor test report data has been created. This worksheet can be found on the ARDOT website at: <https://www.ardot.gov/divisions/construction/construction-information/for-use-on-feb-2024-letting-and-later-achm-spreadsheet/>

The contractor shall submit test reports using this worksheet either electronically by email or printed and given to the Materials Inspector.

The older version, ACHM Workbook, will be used for asphalt mixtures that the contract does not contain the Special Provisions.
